

3W RGB LED Module

◆ Product Description :

This is a super bright RGB LED mounted on a Aluminum board backside without a 3M stick ,suggested to install on any plate for heat dissipation

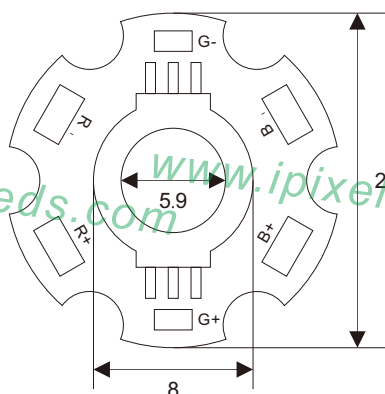

the Red,Green,Blue colors runing different working Voltage from 2.2-3.8V (refer to datasheet)

there is a positive and negative pad for each color where could soldering cable .

◆ Product Datasheet

Product Number	M022001MA3PZ	Luminance/pcs	R:64 lm G:68 lm B:10lm
Operating Voltage	R: 2.2-2.6V G: 3.2-3.8V B: 3.2-3.8V	Ra	/
Power/pcs	3W	Beam Angle	140°
SMD Type	Imitation lumen lamp beads	Size (mm)	φ22mm
LED Qty/pcs	1	IP Rate	IP20
Color	RGB	Operation Temperature	- 25 ~ 60 °C
Pixel/M	/	Material	/
Control	/	Cutting Length	/
Wavelength	R:622 nm G:523 nm B:467 nm	Net Weight/Roll	/

◆ Outline Dimension (unit: mm)

■ R:2.2-2.6V
■ G:3.2-3.8V
■ B:3.2-3.8V

Note: The parameters are subject to change without notice!
